**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**  
**Period for Reply**

**A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.**

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### ***Claim Rejections - 35 USC § 112***

***Claims 4-14 are rejected*** under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As concerns claim 4, the phrase "said steel box" lacks antecedent basis and therefore renders the claims as vague and indefinite.

As concerns claims 9 and 12, the reference to the "object" is improper since the "object" is NOT set forth as part of the invention.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

***Claims 9-12 and 14 are rejected*** under 35 U.S.C. 102(b) as being anticipated by *Pinto et al* 6,148,896.

*Pinto et al* set forth a facade for a roll-up door comprising a set of rectangular panel overlays (inclusive of members 46-48) aligning with one another and forming a gap.

Art Unit: 3634

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

***Claims 1-8 and 13 are rejected under 35 U.S.C. 103(a) as being unpatentable over Pinto et al in view of Thorn 4,550,540.***

***Pinto et al set forth*** a door comprising a plurality of sections pivotally movable to each other and forming a gap; each section comprising a panel overlay forming a facade. ***What Pinto et al do not set forth*** is the overlay formed from molded urethane materials. However, ***Thorn teaches*** forming door members from molded urethane materials. Therefore, it would have been obvious to one of ordinary skill in the art at the time the invention was made to modify the overlays of Pinto et al by forming them from molded urethane materials, as taught by Thorn, in order to mold the overlays and thereby produce any pattern and appearance desired. The applicant should note that a *process* (inclusive of molding and gluing) by which an *apparatus* is made is not given patentable weight within an *apparatus* claim.
